

Lab 3 - Integrate Jenkins with Dockerhub

cloudatwork.io The Best Place to Learn Azure and DevOps

In this document:

- [Pre requisites](#)
- [Create an Access token \(PAT\)](#)
- [Add Jenkins Credentials](#)

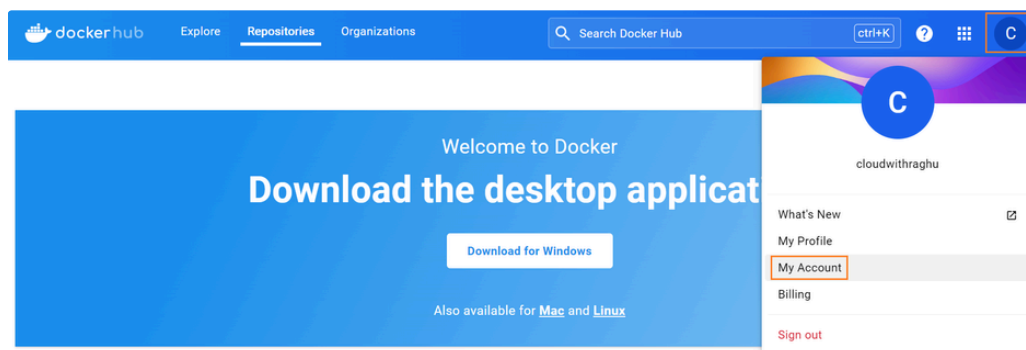

Pre requisites

- Docker Hub Account

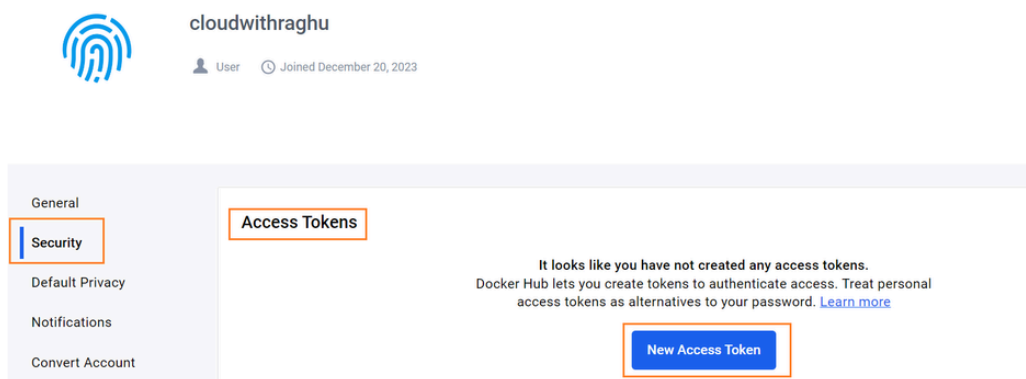

Create an Access token (PAT)

Sign in to your Docker Hub Account

Access your Account settings as shown below:

Create an Access Token as shown below:

cloud

A personal access token is similar to a password except you can have many tokens and revoke access to each one at any time. [Learn more](#)

Access Token Description *

jenkins-Server

Access permissions

Read, Write, Delete

Read, Write, Delete tokens allow you to manage your repositories.

Cancel Generate

Note the Token created on Notepad for further use

Add Jenkins Credentials

Dashboard > Manage Jenkins > Credentials > System > Global credentials (unrestricted) >

Kind

Username with password

Scope ?

Global (Jenkins, nodes, items, all child items, etc)

Username ?

cloudwithraghu

☐ Treat username as secret ?

Password ?

.....

ID ?

dockrhub-creds

Create
